SUBJECT: Make a recommendation to the Board of Supervisors regarding an ordinance amending Sections 18.112.040 (Public hearings), 18.112.045 (Notice of planning commission action), 18.112.060 (Revocation), 18.112.065 (Abandonment), 18.112.070 (Extension), and 18.112.080 (Authorization to operate) of the Lassen County Code. The ordinance would authorize recordation of Use Permit Revocations, Abandonment, and Authorizations to Operate.

Summary:

Attached is a draft ordinance for the consideration of the Planning Commission. The primary intent of the draft ordinance is to provide for the recordation of Use Permit Abandonments, Revocations, and Authorizations to Operate. Currently, these documents are not recorded. However, as a Use Permit is an entitlement that generally “goes with the land” the Department believes it is appropriate for these documents to be recorded.

The proposed ordinance is attached, followed by a document that provides a side-by-side comparison of the existing and the proposed language.

The Planning Commission will make a recommendation (whether the ordinance should or should not be adopted) to the Board of Supervisors.

Adoption Process:

The proposed ordinance is being considered in accordance with section 65853 et seq (Zoning Amendment Procedures) of the California Government Code. In summary, both the Planning Commission and the Board must each conduct a public hearing before said ordinance can be adopted. In accordance with section 65857, the Board of Supervisors can introduce and adopt the ordinance at the same meeting. However, the Board must refer the proposed ordinance back to the Planning Commission, if the Board wishes to consider modifications to the proposed ordinance not considered by the Planning Commission.

California Environmental Quality Act:

The Environmental Review Officer (ERO) has determined that this proposed amendment is exempt from the California Environmental Quality Act (CEQA) per CEQA Guidelines Section 15061(b)(3). Section 15061(b)(3) states that “...*CEQA applies only to projects, which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA.*” The proposed amendment merely provides authority to record documents associated with use permits, pursuant to Chapter 18.112 (Use Permits), but does not significantly change the process.
